

Building & Grounds Team

As part of the church body we try to take care of our building and grounds by working on various projects 'in house'. We have a vacuuming crew that comes once a week to vacuum various parts of the building. We have a kitchen and coffee bar crew that takes care of cleaning the coffee area and kitchen. Also, a couple of times a year we have an 'All Church' clean-up that involves deep cleaning of rooms and carpets, dusting, organizing storage areas, raking leaves, trimming shrubs, and other outdoor projects.

If you would like to serve the church in any of these areas, or if you can think of another need for the church building and grounds that you'd like to help out with, please contact Julie Kennedy in the church office, 503-472-9021.
